

# Renewal Information

Prepaid term · Review before September 2031 · No payment credentials in this document

No payment credentials in this document.

## Current prepaid term

| PRODUCT                  | EXPIRY / RENEWAL MARKER                                                          | SOURCE                       |
|--------------------------|----------------------------------------------------------------------------------|------------------------------|
| Domain cotewall-mews.ltd | 21 September 2031                                                                | Public RDAP                  |
| Web Hosting 1            | 20 September 2031                                                                | Infomaniak Manager           |
| kSuite / Mail / kDrive   | Multi-year prepaid with domain/hosting (confirm exact kSuite line in Accounting) | Director statement + Manager |

## Current payment arrangement

- Paid approximately five years in advance.
- Payment method used: director personal PayPal (Society intention: temporary).
- Do not change payment method without explicit Society approval.

## Required before next renewal cycle

1. Obtain a Society-controlled debit/credit card linked to the Society bank account.
2. Update Infomaniak payment method to that card (Legal Representative / accounting rights).
3. Confirm automatic renewal settings are intentional.
4. Ensure all three directors (or successors) receive billing/renewal alerts in Infomaniak where the platform allows.
5. Diarise a review in **2029–2030**, well before September 2031.

## Notification principle

---

Infomaniak service alerts (renewals, failed payments, security/admin notices) should go to nominated director personal Infomaniak-notification emails — **not** by indiscriminately forwarding all directors@resident correspondence to personal inboxes.

---
